**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Windy conditions will make for fairly arduous walking especially on exposed terrain and in association with the heavy rain. Although heavy rain and lower cloud clears away from lunchtime onwards, strong winds with patchy rain or drizzle will remain through the afternoon.

Forecast for Thursday 11 Apr 2024

Weather: Patchy light rain or drizzle in the first few hours of the morning quickly clears east to bring dry weather with partly cloudy conditions. Rain and low cloud expected from mid-afternoon onwards, turning patchy and light for the evening but with quite low cloud and mist/fog possible by then. Feeling mild.

Maximum wind: South or southwest 20 gusting 30mph.

Chance of cloud-free hill tops above 700m: 80% or higher through the morning and beginning of the afternoon, this decreasing to less than 10% for the evening.

Low cloud and visibility: Partly cloudy with cloud above summits and good visibilities expected. Through the evening, cloud lowers to 100-200m with mist/fog possible at lower levels.

Temperature: **Valleys:** 10 Celsius rising to 13 Celsius.
At 700m: 7 Celsius rising to 10 Celsius.
Freezing level: Above the summits.
